## PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 63 TRNG

SESSION NUMBER: 1

DATE OF SESSION: 880930

DATE OF REPORT: 880930

START: 0920

END: 1020

#### METHODOLOGY: CRV

VIEWER IDENTIFIER: 032

I. (S/NF/SK) MISSION: Access and describe in a stage one sense training target # 73, Vietnam Veterans Memorial, Wash., DC.

2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates  
770250/385329. Movement commands in stage 3 (all originating  
from the memorial):

1. "1.35 miles at an azimuth of 99 degrees something should be perceivable" - Hirshorn sculpture garden and museum.
2. "2.4 miles at an azimuth of 74 degrees, something should be perceivable" - 6-track/rail switch yard.
3. ".65 miles at an azimuth of 100 degrees, something should be

"perceivable" — Washington Memorial.

3. (S/NF/SK) COMMENTS: Excellent stage three session. 032 paced himself perfectly. Excellent performance on movement exercises. 032 executed his first analytical sketch today and did superbly, this was the final stage 3 skill he needed to master. On the last movement (Washington Memorial), 032 experienced strong animal smells and an AOL of tent, he later drew a tent peg. This was initially discarded as AOL until later in the afternoon when it was learned that there is currently a tent with a horse show in it located next to the monument. 032 has exhibited superb structure and this session coupled with the last three (which included movement exercises and all types of stage three sketches) are an indicator that 032 is ready to progress to stage 4. Recommend that stage four lectures commence on 3 October 1988.
